

Success beyond the surface.

YoungStar

Heavy-duty 32mm thick mat with hoof-stopping lugged profile.

Designed with the needs of lot feeders, and their cattle, in mind. Young Star is a built-tough rubber matting system that's simple to install, easy to clean, and an exceptional performer under pressure. Its well-placed lugs are designed to stop cattle slipping and dramatically reduce the incidence of falls and injuries.

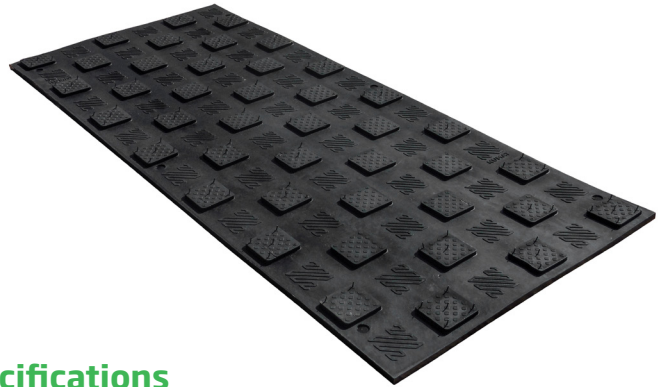

Applications

Cattle yards, induction areas, loading zones, and processing areas.

Properties

Made of high-quality rubber using a unique vulcanization process.

Originally developed for, and proven at, Mort & Co's Grassdale Feedlot.

Specifications

Features

- 18mm thick base with 14mm high square lugs
- Fully vulcanized sealed rubber (won't hold moisture or bacteria)
- Stainless-steel fixing system (no protruding metal parts)

Strengths

- Dramatically reduces slips and falls
- Uniform shape - simple to install and easy to clean
- Heavy-duty, designed to last
- Can be cut to fit

Dimensions

Length:	2100mm
Width:	900mm
Thickness:	32mm
Weight:	50kg (approx)
